

MAINTENANCE SERVICES

E&B PAVING.Inc
World-Class Solutions at a Local LevelSM

First Impressions Count

Commercial business and property owners understand the power of curb appeal. The visual appearance of your facilities and grounds sends a strong message to customers, visitors and passersby about the quality of your organization. As we all know, first impressions really do count in any successful business.

Your parking area is a major factor in the curb appeal equation. A well maintained lot that features solid construction, a smooth surface and proper drainage attracts customer traffic and promotes safe conditions for pedestrians and vehicles alike.

Since our founding in 1967, E&B Paving has provided commercial businesses with world-class pavement solutions that help them make the right first impression. Not only do we construct asphalt and concrete parking lots, curbs and sidewalks, but we also offer maintenance services to keep them visually attractive and structurally sound.

- > Asphalt and concrete paving
- > Design and repair consulting support
- > Demolition of deteriorated pavement, including asphalt milling for future recycling
- > Curb and sidewalk construction and repair
- > Dirt and stone sub-base placement, grading and compaction required for repairs
- > Pothole milling and filling
- > Drainage design and construction support, including storm sewer installation
- > Cold tar emulsion sealer and hot rubberized crack filler services
- > Parking lot striping
- > Parking bumpers
- > Americans with Disabilities Act signage

Similar to E&B Paving's other transportation construction solutions, we believe the most effective maintenance services are delivered by professionals who understand local market issues and paving conditions. With ten area offices and 13 production facilities located throughout Indiana, we conveniently and cost-effectively provide our commercial customers with the material and expertise needed to support their maintenance needs.

Learn More About E&B Paving's Maintenance Services Visit our website at www.ebpaving.com where you can find contact information for the nearest E&B Paving office, electronically submit your project bid request and receive a free estimate. Our local team will take it from there to demonstrate how we can support your parking lot maintenance needs and exceed your expectations with world-class solutions.
